

Public Information Centre Notice Wellington County

Badley (Metcalf Street) Bridge Replacement Detail Design Public Information Centre

The County of Wellington completed a Municipal Class Environmental Assessment (Class EA) in 2017 that resulted in the recommended alternative to replace the Badley (Metcalf Street) Bridge. The County is holding a public information centre to inform the public of the proposed detail design prior to the start of any construction activities related to the replacement of the Badley (Metcalf Street) Bridge. Construction is scheduled to start in fall 2019 with construction to be staged to continue in 2020.

Public Consultation

The County wishes to ensure that anyone interested in this project has the opportunity to review the proposed detailed design. The Public Information Centre will be held on Thursday, June 13, 2019. At this open house style meeting, information displays will show: the Environmental Assessment Process; the context sensitive design, interpretative signage and commemoration of the existing structure; and the detailed design drawings, construction staging and schedule. The County's project team members will be available to discuss the project displays and answer questions.

The Public Information Centre is scheduled for:

Date: Thursday, June 13, 2019
Time: 5:00 to 8:00 pm
Location: Elora Community Centre, 21 David Street West, Elora ON N0B 1S0
