Attention: Director

RE: Request for approval for alternative notification

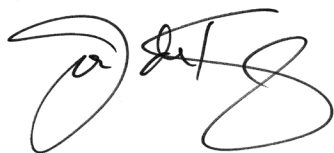

The County of Wellington is requesting approval for alternative means of notification for the reasons specified under section 79(1) of Ontario Regulation 63/09 under the Pesticides Act (<https://www.ontario.ca/laws/regulation/090063#BK103>). Our reason for this request is that complying with the requirements of section 78 would require the posting of more than 20 signs.

For the upcoming season we plan to use the services of Green Stream for application of pesticides to control noxious weeds on the rural roadsides within the County.

We propose to place the attached advertisement in the local news paper as well as post on our municipal website as an alternative means of notification.

If you have any questions, please contact me.

Yours very truly,

A handwritten signature in black ink, appearing to read 'Joe de Koning', written in a cursive style.
