Note: This table provides a summary of the activities listed in the Clean Water Act (2006) that apply as Prescribed Drinking Water Threats (PDWT). For details refer to the text of the Source Protection Plan and the Ministry of Environment, Conservation and Parks Technical Rules.

*Application of Commercial Fertilizer, Non-Agricultural Source Material, and Road Salt may not be a significant drinking water threat in some areas due to the % managed land, livestock density, and/or % impervious surface calculations for these areas. See the text of the Source Protection Plans for further details.

Please note that the Source Protection Plans are amended from time to time and for an up to date list of SPP's specific land use policies, the reader should consult the specific SPP.
