PART C - THE APPENDICES

The Appendices, if included herein, provide information related to the Amendment, but do not constitute part of the Amendment.

PART A - THE PREAMBLE

PURPOSE

The purpose of this amendment is to make sufficient urban area land available in Centre Wellington (Fergus and Elora/Salem) to accommodate an appropriate range and mix of land uses in Wellington County over the long-term. The amendment also supports intensification, increased densities and appropriate phasing of growth and development County-wide.

This amendment will:

- Add urban expansion lands for Fergus and Elora/Salem as identified by the Township of Centre Wellington, subject to refinements.
- Implement intensification and density targets.
- Introduce new policies to set out a framework for local municipalities to phase new growth.
- Introduce new policies to address agricultural impact mitigation.

This amendment also makes targeted changes related to the 2024 Provincial Planning Statement to:

- Specify a 20 to 30 year planning period.
- Remove references to the municipal comprehensive review.
- Maintain policy connections in the Greenbelt Plan Area to the Provincial Policy Statement (2020) and Growth Plan for the Greater Golden Horseshoe (2019, as amended).

Housekeeping changes proposed through this amendment include:

- Updated mapping for Sourcewater Protection Schedules in accordance with the approved Source Protection Plans.
- Removal of specific land use policies in the Official Plan which are a duplication of the approved Source Protection Plans.
- Removal of local planning policy in Centre Wellington for Community Planning Study Area.
- Removal of Fergus and Elora/Salem urban expansion lands and 300 m buffer from Mineral Aggregate Resource Overlay.
- Updated mapping for the Provincially-expanded Greenbelt lands in Erin in 2023 to reflect the in-effect Greenbelt Protected Countryside and Greenbelt Natural Heritage System.
- Other minor policy changes.

LOCATION

The lands subject to the proposed amendment are located within the Township of Centre Wellington and the Town of Erin. Housekeeping updates to Source Water Protection mapping apply to all local municipalities. Other policy changes apply broadly across the County of Wellington.

BACKGROUND

In September 2019, County Council authorized the Planning and Development Department to proceed with the County Official Plan Review, which includes a Municipal Comprehensive Review (MCR) component under the Growth Plan for the Greater Golden Horseshoe (Growth Plan, 2019 as amended) and a 5-year review component. The Minister of Municipal Affairs and Housing advised that municipalities may choose to use a phased approach, which includes more than one official plan amendment, to achieve conformity with the Growth Plan.

The County Official Plan Review has been primarily focused on the MCR technical work required by the Growth Plan and implemented through the following phased amendments:

OPA 119 (County Growth Structure)

- May 2022 County Council adoption
- May 2024 final Provincial decision via Bill 162

OPA 120 (County Growth Forecast)

- February 2023 County Council adoption
- July 2024 final Provincial decision

OPA 123 (Future Development Lands)

- October 2024 County Council adoption
- November 2024 to Province for a decision

The Province recently concluded a process to streamline and combine the 2020 Provincial Policy Statement (PPS) and 2019 Growth Plan for the Greater Golden Horseshoe (Growth Plan). The 2024 PPS came into effect October 20, 2024 and all land use planning decisions are required to be consistent with its policies.

OPA 126 is the fourth amendment of the County's phased Official Plan Review.

BASIS

This County-initiated amendment is based on the following:

- A detailed review of the County of Wellington's population, household and employment growth forecasts and allocations to 2051 as approved by the Province through OPA 120;
- An in-depth Land Needs Assessment carried out in accordance with the methodology established by the Province, to assess the quantity of land required to accommodate the County's forecasted growth to 2051;
- Results of a further density scenario assessment conducted by the Township of Centre Wellington which increased the overall greenfield density from 47 people and jobs per hectare to 53 people and jobs per hectare (but maintained the intensification rate of 20%).
- Results of the evaluation and overall recommendations for where the Township can most feasibly expand its urban boundaries; and
- An Agricultural Impact Assessment.

This amendment is being processed under Section 26 of the Planning Act.

PUBLIC AND AGENCY INPUT

A Special Meeting of County Official was held in June 2021 for the Official Plan Review.

This Official Plan Amendment (OPA 126) has been informed by previous consultations on the Phase 1 MCR Report: Urban Structure and Growth Allocations and Phase 2 MCR Report: Land Needs Report which included:
