APPENDIX A

Notification Materials

Notice of Study Commencement Notification Letters

NOTICE OF STUDY COMMENCEMENT

County of Wellington
Wellington Road 109 Bridges
From Highway 6 to Sideroad 7, Township of North Wellington
Schedule C Municipal Class Environmental Assessment

The Study

Wellington County Road 109 crosses the Conestogo River at four locations between Highway 6 and Sideroad 7, southeast of community of Arthur. The bridges at all four crossings are in an advanced state of deterioration with some elements identified as not meeting current standards. The County is considering all options to address these conditions including: bridge rehabilitations, bridge replacements, and the feasibility of a localized permanent realignment of Wellington Road 109 that would eliminate or reduce the multiple bridge crossings. WSP has been retained by the County of Wellington to complete a Municipal Class EA Study to address these items.

The Process

In accordance with the requirements for Schedule C projects of the Municipal Class Environmental Assessment. The Study will define the problem, identify and evaluate alternative solutions and design concepts, recommend a design, assess potential impacts and identify mitigation measures associated with the preferred design. The study will consider numerous aspects including but not limited to: construction staging and traffic delays during construction, potential for property and business impacts, heritage values and protection of the natural environment.

Comment Invited

A key component of the study will be consultation with interested stakeholders including public, agencies and Indigenous communities. We want to ensure that anyone with an interest in this study has the opportunity to provide input and feedback. There will be opportunities at key project milestones to review information and provide input to the decision-making process. Project updates will be posted on the Wellington County website www.wellington.ca. Upon completion of the study, the planning process and recommendations will be documented in an Environmental Study Report (ESR) and made available for public review.

If you have any questions or concerns at any time during the study, or wish to be placed on the study mailing list to receive study notices directly, please contact either of the project team members below:

Joe de Koning, P.Eng. Construction Manager County of Wellington 74 Woolwich Street Guelph ON N1H 3T9 519.837.2601 x 2270 joedk@wellington.ca William Van Ruyven, P.Eng. Consultant Project Engineer WSP Canada Group Limited 610 Chartwell Road, Suite 300 Oakville ON L6J 4A5 905.823.8500 william.vanruyven@wsp.com

Covid-19

The County is keeping the community safe by complying with provincial guidelines, supporting physical distancing, and postponing in-person public meetings. Consultation and opportunities for public input will focus on web-based information packages with accommodations for alternative formats, as requested.

Information will be collected in accordance with the Freedom of Information and Protection of Privacy Act and will become part of the public record.

Notice of Public Information Centre #1 Notification Letters

County of Wellington

Wellington Road 109 Bridges Municipal Class Environmental Assessment

From Highway 6 to Sideroad 7, Township of North Wellington

NOTICE OF PUBLIC INFORMATION CENTRE 1 - ONLINE

The County of Wellington is undertaking a Municipal Class Environmental Assessment (Class EA) study to consider potential solutions to address the poor condition of four structures that cross the Conestogo River on Wellington Road 109, just east of Arthur.

The County is considering all options to address these conditions including: rehabilitation, replacement, and the feasibility of a localized permanent realignment of Wellington Road 109 that would reduce the number of bridge crossings. WSP has been retained by the County of Wellington to complete the Municipal Class EA study to address these items.

A Public Information Centre (PIC) package is being made available online to introduce the study, review the study scope, existing conditions, problems and opportunities and alternative planning solutions, and seek input on these topics. This is the first to two PICs planned for the study.

The package can be found at www.wellington.ca/109EA starting on Thursday December 17, 2020.

Your feedback is important. The PIC package includes information about how you can share your comments and questions with the Project Team.

If you have any questions or concerns at any time during the study, or wish to be placed on the study mailing list to receive study notices directly, please contact either of the Project Team members below:

Joe de Koning, P.Eng. Construction Manager

County of Wellington 74 Woolwich Street Guelph ON N1H 3T9 519.837.2601 x 2270 joedk@wellington.ca William Van Ruyven, P.Eng. Consultant Project Engineer

WSP 610 Chartwell Road, Suite 300 Oakville ON L6J 4A5 905.823.8500 william.vanruvven@wsp.com

Questions and comments will be received by the Project Team at any time throughout this Class EA study however, we ask that specific feedback related to this PIC package be submitted by January 29, 2021.

Information will be collected in accordance with the Freedom of Information and Protection of Privacy Act and will become part of the public record.

The County of Wellington

Wellington Road 109 Bridges Municipal Class Environmental Assessment (EA) Study From Highway 6 to Sideroad 7, Township of North Wellington

Public Information Centre #1 Online Package

The County of Wellington is undertaking a Municipal Class Environmental Assessment (Class EA) to consider potential solutions to address the poor condition of four structures that cross the Conestogo River on Wellington Road 109, just east of Arthur.

A Public Information Centre (PIC) package has been prepared to introduce the study, review the study scope, existing conditions, problems and opportunities, and alternative planning solutions, and to seek your input on these topics. This is the first of two PICs planned for the study.

The package can be found starting on Thursday December 17, 2020 at www.wellington.ca/109EA

Your feedback is important to the County. The PIC package includes information about how you can share your comments and questions with the Project Team.

ALTERNATE FORMATS AVAILABLE UPON REQUEST

^{oM} Official Mark of The Corporation of the County of Wellington.

WR109 Class EA PIC1
Questionnaire

Q1. What is your area of interest in this study?
 □ Member of travelling public □ Goods movement □ Property owner within the study area □ Business owner/operator within the study area □ General interest □ Other
Q2. Please indicate your travel patterns in relation to the County Road 109 study area
How many days per week?
Time of day? (circle all that apply) morning mid-day afternoon
To/From Destinations?
includes land use, cultural heritage, natural environment, drainage and details about the four structures. Is there any other critical information that the Project Team should be made aware of, or consider as part of this study?
Q4. The alternative planning solutions being considered in this study are identified on Slide 31. Are there any other options that should be considered at this stage?
□ No
□ Yes
If yes, please explain.

Q5. The assessment and evaluation of planning solutions is presented on Slides 38 to 44. Is there anything else that should be factored into the assessment and evaluation process?							
Q6 . As identified through the evaluation process and summarized on Slide 44, the Project Team is recommending that all four structures be replaced. Does this recommendation seem reasonable based on the factors considered?							
□ Yes							
If not, please explain.							
 Q7. Do you have any specific concerns about the recommendation to replace all of the structures? No Yes 							
If yes, please specify which structure and reasons.							
Q8. Slides 46 and 47 outline some of the key considerations that will go into the next phase of							
the Class EA study when we develop the design options for each bridge. Are there any other aspects the Project Team should consider in developing design options?							

Q9. Is there anything the Project Team can do to improve upon how the study materials are presented or being shared for the next PIC tentatively planned for Spring 2021?

Q10. Please share any other questions or comments you may have:
